OVERVIEW/FEATURES

It is no surprise that short travel full suspension bikes are some of the funnest and most versatile bikes to ride and our Double is no exception. Originally built as a full suspension dirt jumping bike we soon found that it excelled as a short travel slopestyle bike as well as racing dual slalom courses. Casey Groves rode his Double to 3rd place at Whistler Crankworx, Jill Kintner took 1st in dual slalom at Sea Otter and Dirt Magazine called it one of the top 100 mountain bike products of 2010 and 2011. The frame features adjustable travel from 80-100mm depending on your riding discipline for the day to give the Double two distinct personalities no matter how you decide to ride it.

REAR TRAVEL:	80mm (3") or 100mm (4") Rear Wheel Travel

REVIEWS

MB UK Magazine Reviews the Double

"The Double feels stable in the air, and you can really whip around while you're up there. It's surprising what you can get away with when you overshoot or come up short on a landing too. If the dirt jumps or BMX track are too wet, then the Double is a great little bike for ragging around the woods on." - Rob (MB UK Magazine)
