BICYCLE COMPANY

"TURN EVERY TRAIL INTO A PLAYGROUND"

THROTTLE

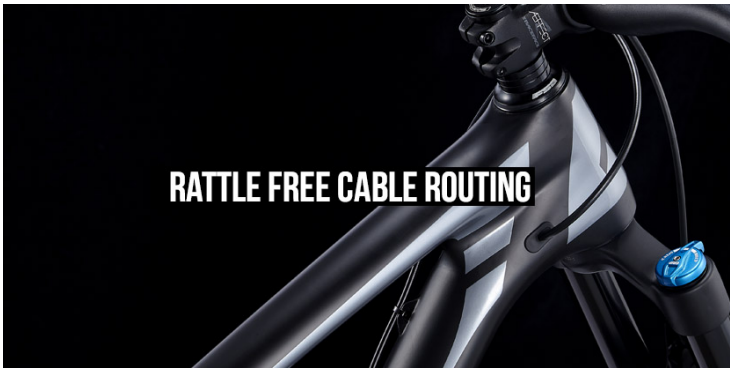

140MM FRONT/27.5" WHEELS

Despite its lightweight carbon construction, the Throttle is the most aggressive trail hardtail we have ever made. Designed to blur the lines between a trail bike and a dirt jump bike, the Throttle doesn't feel out of place stopping for a DJ session on the way home from a trail ride. The Throttle combines the fun playful feel of our GiddyUp line with the efficiency of a carbon hardtail. A truly unique bike, the Throttle is the evolution of Transition hardtail frames that can take you down any trail.
