

NAME SUPPRESSOR
TRAVEL 155MM REAR
160MM FRONT
WHEEL SIZE 26

PHOTO: PARIS GORE / RIDER: LARS STERNBERG / LOCATION: SQUAMISH BC

SUPPRESSOR OVERVIEW

The all new Suppressor is the 26" brother of the Patrol and gives you the control of a downhill bike perfectly balanced with a lively and

jumpy personality for a comfortable, efficient and fun ride in almost any trail condition. The Suppressor is long and low with a slack 65 degree head angle and big wheelbase for tremendous stability in rowdy terrain. But don't let the numbers fool you; the short 430mm chainstay and 155mm of active and carefully tuned suspension keep you in touch with the ground and ready to respond at a moment's notice. With the Suppressor you get big mountain confidence with trail bike agility in the same machine.
